## Have you thought about your Smart Sale Strategy?

### Agent Selection

Great care should be taken when deciding which agent to trust. Crucial selling decisions are made by your agent.

### Method of Sale

A choice that dictates your chance of obtaining the best price, without financial harm or damage to your digital footprint.

### Price

What is market price? The price willing buyers are prepared to pay for your property today.

### Marketing

Thousands of dollars in equity vanish every day through unnecessary & expensive advertising and poor pricing tactics.

### Inspections

A good inspection is so much more than simply opening your house for strangers.

### Negotiation

To achieve the highest price possible for your property, an integrated negotiation strategy is essential.

### Costs

Hiring a bad agent costs a lot more than just their selling fee. The right agent adds tens of thousands to your bottom line.

### Guarantee

If an agent is not prepared to guarantee their service, why offer it?

## Find an agent you trust

If you don't trust the agent, don't hire the agent. A major ingredient in any relationship, business or personal, is trust.

Before you choose your agent, ask many questions, check written and online reviews, ask for a guarantee, test their negotiating skills and ask yourself a BIG question: Do I feel comfortable with this person handling the sale of (possibly) my greatest financial asset?

If your answer is 'no', do not hire the agent.

Once you decide on an agent, give the agent your trust and confidence. Do not interfere.

Allow the agent to make decisions and get on with the job of finding the right buyer for your property.

If the agent later loses your trust, provided that you insisted on a guarantee, you can always dismiss the agent and find one you can trust.

The best agents are worthy of your trust. They won't let you down.

If you are thinking of selling this spring, we can help you get ready. You pay nothing until **SOLD**. Call **6234 5500** for a **FREE** sales Appraisal.
